Professional Profile

Passionate and results-driven Software Engineer Aspirant with passion for technology and innovation which led me to become a member of the executive committee of IEEE GTBIT. My journey in leadership began during my school days, where I served as a house lead and a member of the student council. These experiences taught me the importance of teamwork, communication, and adaptability.

I have a diverse educational background, having completed my 10th grade in Canada, specifically in British Columbia. This exposure has given me a global perspective and enhanced my ability to adapt to new environments.

My area of expertise lies in web development, and I am constantly looking for opportunities to hone my skills in this field. I am proficient in various programming languages and always up for a challenge to learn and explore new technologies.

I am actively seeking opportunities to further my skills and contribute to the growth and success of an organization. I am open to new connections and collaborations.

Top Skills

Communication • Editorial • Python (Programming Language) • Web Development
